

Crippled Critter #20015-5

Thank you for purchasing a Lucky Duck™ Premium Decoy. To view additional Lucky Duck™ products please visit your local Sporting Goods dealer or logon to our website at www.luckyduck.com.

Crippled Critter is the most innovative predator decoy to hit the market in years. The Crippled Critter imitates an injured critter flopping around on the ground. The decoy moves erratically and then drops out of sight for a second and the reappears with its erratic motion. This movement entices predator's curiosity and draws them in close. The decoy features a quick attach adapter for easy storage and a ground base to set on any terrain.

Set-up Instructions:

1. Install 4AA batteries in the bottom of the decoy base.

DO NOT MIX OLD & NEW BATTERIES. DO NOT MIX ALKALINE, STANDARD (carbon zinc) or RECHARGEABLE (ni-cad, ni-mh, etc) BATTERIES.

2. Attach critter connector to motor base
3. Switch the decoy on.

Notes:

- The motor base features a ¼ 20 thread on the bottom which will fit most standard tripods if you need to raise the decoy higher off the ground.
- The auxiliary plug allows the decoy base to be controlled remotely by an electronic caller with the auxiliary function. Simply plug one end of a 3.5mm cord (not included) into the auxiliary jack on the decoy base and plug the other end into the electronic caller. Turn the decoy on. If the electronic caller is compatible you should be able to use the auxiliary function on the callers remote to turn the decoy on and off. The decoy must be turned on for the auxiliary function to work.

Warranty: Lucky Duck™ warrants this product against all manufacturing defects for a period of 1 year from date of purchase. Proof of purchase is required. Abuse of the product (submerged in water, dropped, mistreatment etc.) is not covered. Please return and exchange the defective unit to the store where you purchased the product. If the store will not accept the return, please call our customer service phone number at 715-338-3183.
